CHARTERED

Chartered Engineer:

Be recognised for your work.

How do I become Chartered?

If you are an engineer with 15 years' or more experience in the profession, you could achieve your Chartered status without delay via the Chartered via Interview process. Chartered via Interview is a premium pathway for senior, experienced engineers. It has been designed to minimise the time commitment for you to achieve Chartered status.

“ Chartered covers a broad array of skill sets that engineers are expected to have.

Naval Engineer

What does Chartered mean for my career?

As a Chartered Engineer, you take your place at the top of the profession.

Chartered is recognised worldwide as a measure of excellence, opening doors to an international career. In Australia, Chartered is increasingly in demand by employers seeking senior personnel with integrity and drive. When promotions or consulting jobs open up, Chartered will give you an edge.

Chartered Engineers are also members of Engineers Australia.

As the trusted voice of the profession, Engineers Australia provides training, support, accreditation and representation for engineers across the globe.

More than just a membership, Engineers Australia provides a place for more than 100,000 engineers to belong and grow. Through our awards programs, we highlight the dedication and accomplishments of engineers. With events, we create a unified forum for engineers. For the last 100 years, we have helped shape the next generation of the profession as we create events, accredit engineering programs and assess practitioners. Membership of Engineers Australia takes you further as an engineer.

—

Becoming Chartered requires you to be a member of Engineers Australia.

Your path to Chartered via Interview
