Introducing the EngMentor Scheme to Mentors

Newcastle

What is the purpose of the EngMentor Scheme?

The EngMentor scheme is intended to give Engineering students an idea of what the actual Engineering workplace scene is like and provide students with a contact in industry who is a practising graduate Engineer and willing to assist them.

Which students may participate? How will they join the Scheme and what is expected of them?

The scheme is for engineering students at tertiary education institutions located in the Newcastle Division, and is principally centered on Newcastle University. To assist in compatible student/mentor match-ups, students are required to indicate their areas of interest during sign up. Later they will be invited to the '**Meet Your Mentor**' evening where they will hear more about how the scheme operates and meet their assigned mentor. The mentor is assigned for one year, but established relationships may continue on for many years. Students may sign up in more than one year.

Students from all years are welcome to register with students in 3rd & 4th year likely to gain most benefit.

Who will the Mentors be? What is expected of them?

All engineers are invited to be mentors. Experienced professional engineers are preferred but all volunteers will be considered. The role of the Mentor is to provide personal

experience and insights which students may not otherwise gain. This is becoming more important now as most students are enrolled 'full time' with many having a hard time gaining real practical experience during their studies.

Mentors are not expected to provide assistance with assignments and other course work.

It is not a requirement for Mentors to provide the Student with vacation employment, but they may be able to guide them to areas that may be applicable to their specific interest. However, if the Mentor is able to find, or even provide, vacation experience then this is a bonus.

Interested in becoming a volunteer Mentor?

You are invited to complete a Mentor Registration Form and forward it to Jane Dennis at Engineers Australia Newcastle: jdennis@engineersaustralia.org.au.

Experience in the Mentor Scheme has shown that much of the activity occurs during the university year. Mentors may be assigned more than one student and actual amount of time spent in contact with each student may vary.

Please note that this scheme is conducted on an annual cycle with a publicity campaign followed by a "Meet your Mentor" evening in approximately May each year. Registrations received outside this period will be held over until the following next annual cycle.

For more Information, please contact
Engineers Australia Newcastle on 02 4911 7310

EngMentor Scheme

Mentor Registration Form

ENGINEERS
AUSTRALIA

Please register by **Friday 3 April 2020**

Name	<input type="text"/>	EA ID	<input type="text"/>
Professional Position	<input type="text"/>		
Organisation Address	<input type="text"/>		
Phone	<input type="text"/>		
Email	<input type="text"/>		

Specific Areas of Experience (tick all that you can offer assistance with)

<input type="checkbox"/> Chemical Engineering	<input type="checkbox"/> Mechanical Engineering
<input type="checkbox"/> Computer Engineering	<input type="checkbox"/> Mechatronics

Year of Graduation Years of Engineering Experience

Additional Comments

The next contact you will receive is an invitation to the **'Meet Your Mentor'** evening planned for Tuesday 5 May 2020 at University of Newcastle from 5.30pm sharp. (*Venue details to follow*)

You will have the choice to respond to the invitation by:-

Saying you are able to attend the Meet Your Mentor event on Tuesday 5 May 2020

OR

Saying you are unable to attend the Meet Your Mentor event on Tuesday 5 May 2020 AND agree to be paired with appropriate students & have their details forwarded to you.

Signed Date

Thank you for your participation. Completed forms should be returned to jdennis@engineersaustralia.org.au

Please note that this scheme is conducted on an annual cycle.

Registrations received outside this period will be held over until the following year.
