

NEWSLETTER OF THE ASIAN PACIFIC CONFEDERATION
OF CHEMICAL ENGINEERING (APCChE) #2

March 2021

APCChE co-sponsored event International Chemical Engineering Symposia 2021 by SCEJ

The Society of Chemical Engineers, Japan (SCEJ) was established in year 1936 as The Society of Chemical Machinery. In 1948 the name was changed to SCEJ. Now SCEJ has approximately 7000 personal members and 440 corporate members. In order to enhance their research and education activities. SCEJ has 7 regional branches and 14 research divisions. More info of SCEJ may be found on their website: <http://www.scej.org/en/>

SCEJ holds the Annual Meeting in March and the Autumn Meeting in September, both of which are three-day meetings with 1500-2000 participants. Approximately 1000 papers are presented.

Special international sessions were organized during the SCEJ Annual Meeting as the 75- year anniversary event in 2012. Since then international sessions have been incorporated into the SCEJ Annual Meeting. These international sessions have been upgraded to **International Chemical Engineering Symposia (ICHES)** as a joint event of the SCEJ Annual Meeting. ICHES is also co-sponsored by APCChE. This year ICHES will be held as a virtual on-line meeting. Presentations by winner of the SCEJ Award for Outstanding Asian Researcher and Engineer are also scheduled.

Free registration is provided for APCChE members for the ICHES.

International Chemical Engineering Symposia 2021

ICHES 2021

March 20-22, 2021 Virtual meeting
<https://miraikagaku.xii.jp/iches2021/>

The following special sessions are scheduled.

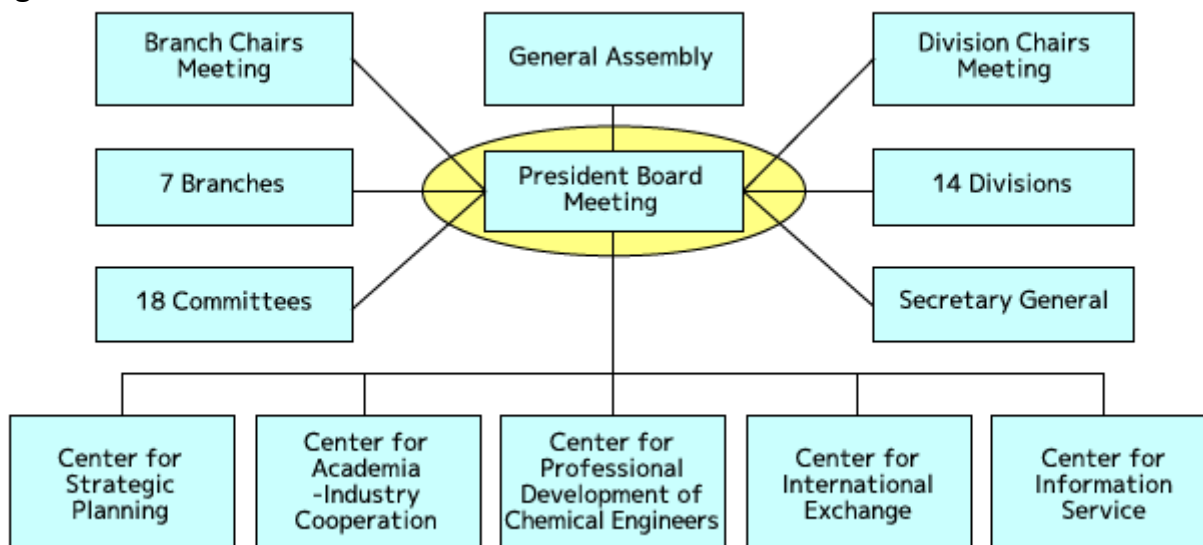

- Action Plan 2050 Toward a Carbon-free Society based on Chemical Engineering
- Recent Researches on Gas Hydrates and Supercritical Fluids for Building a Sustainable Society
- Recent Progress in Energy Conversion and Storage - Nanomaterials Synthesis -
- Recent Development of Advanced Materials for Separation Technology
- Leading Edge Technology of Material Structure Control for Functional Expression
- Recent Progress in Design of Advanced Materials for Membrane Science and Technology

Registration is FREE for those living outside Japan, and attending ICHES2021 as an audience

Please register at the symposia website.

JOURNAL OF CHEMICAL ENGINEERING OF JAPAN

12 issues per year

Journal of Chemical Engineering of Japan is dedicated to providing timely original research results in the broad field of chemical engineering ranging from fundamental principles to practical applications.

The SCEJ Award for Outstanding Asian Researcher and Engineer

This award shall be granted to the researchers and/or engineers under the age of 45 (incl. 45 years old) at the time of February 14th who have accomplished outstanding achievements in chemical engineering. Nominees should have Asian nationality and work in Asian countries except for Japan.
