Becoming an EA Member & Getting Chartered

An opportunity to hear about the steps to membership and Chartered

Interested in becoming a member of Engineers Australia?
Already a member and ready to take it to the next step and become Chartered?

Engineers Australia Qatar Chapter invites you to an information session about becoming a member of Engineers Australia and taking the next steps to becoming a Chartered Professional Engineer.

Chartered Status certifies that you practice in a competent, independent and ethical manner, and indicates you are a leader in your field.

Chartered represents:

- The highest standards of professionalism
- Leadership
- Up-to-date expertise
- Quality and safety
- The ability to undertake independent practice.

This information will benefit members and non-members who wish to know more about membership of Engineers Australia, how to make the most of your membership, and the Chartered process in order to select and enrol on the most appropriate pathway to Chartered membership.

Register your interest today.
