**TICKETS (incl. GST)**  
Members & Students Complimentary  
Non-members $30

**REGISTRATIONS CLOSE**  
20 March 2016

Princes Highway Upgrade  
Foxground and Berry Bypass Site Tour.

The Princes Highway is being upgraded to reduce the commute time from Sydney to the south coast and to improve general road safety.

The work is being undertaken in a number of stages. The initial works, which included the bypass of Gerringong, have now been completed. Current works involve the bypass of Foxground and Berry.

Future works are to include the upgrade of the highway from Berry to Bomaderry. A new bridge is also proposed over the Shoalhaven River.

This event is an opportunity to see a model of the upgrade works, listen to the details of the works being undertaken by Fulton Hogan and observe some of the works in progress. Field observation will include a 30 m high cut and a bridge viaduct.

For your safety, hi visibility shirt, hard hat, and safety boots are required to be worn. You will also need to attend a short site induction.
