Do you think the Professional Engineers Act is unclear?

Do you know your obligations?

Engineers Australia is pleased to present this event in conjunction with the Board of Professional Engineers Queensland (the Board).

As part of the Board’s commitment to engaging with engineers, this presentation will:

* Give an overview of the Professional Engineers Act 2002 (the Act) and registration;
* Explain some common areas of concern;
* Discuss some case studies and examples where engineers have breached the Act; and
* Answer any questions you may have.

Research conducted by the Board has shown many engineers believe the Act is unclear and they don’t fully understand what it all means to them.

Our Speaker
Clare Murray, CEO and Registrar of the Board will be on hand to explain the Act and RPEQ requirement and discuss some of common issues engineers have.
