Seminar Abstract

The Pacific Highway Woolgoolga to Ballina project is Australia’s largest regional road construction project consisting of the design and construction of 155 kilometres of dual carriageway four lane highway. The project is estimated to cost $4.3 billion and is scheduled for completion by 2020.

The project starts about six kilometres north of Woolgoolga (north of Coffs Harbour) and ends approximately six kilometres south of Ballina. This project will complete the objective of a continuous dual carriageway highway from Sydney to Brisbane.

This is Australia’s first Delivery Partner procurement model and is being delivered by The Pacific Complete consortium - comprising RMS, Laing O’Rourke and Parsons Brinckerhoff.

SPEAKERS

Bob Higgins, Director, Pacific Highway Project Office

Steve Summerell, Procurement and Technical Manager, Pacific Highway Project Office/Pacific Complete

Mike Bulmer, Design Manager, Pacific Highway Project Office/Pacific Complete

Allan Gregory, Project Director, Pacific Complete
