# STAND OUT AND BE RECOGNISED

Engineers are world-changers.  
No other profession has quite the same impact on the environment, the skyline or the way people live their lives.

No matter how you're working right now, there's an opportunity to make an even bigger difference and expand your value when you step out and join Engineers Australia.

## MEET ENGINEERS AUSTRALIA

EA is the trusted voice of the engineering profession, delivering training, support, accreditation and representation to engineers across the globe.

We stream high-quality resources and training 24/7, so you can read, watch or listen when it suits you. Stay up to date and accelerate your career with the help of EA.

## Build a career without limits

You're still figuring out exactly how you'll make a difference as an engineer. You've chosen your specialty, and now you need to prove yourself to your managers, your clients and your peers.

EA will help you create the change you need to see by building a strong personal brand and a sustainable career with support, mentoring and training when you need it.

## Join the team and be the best engineer you can be.

Student membership is totally free, and gives you:

- ✓ Access to our members-only graduate job board and Young Engineers Australia (YEA) community
- ✓ Make meaningful connections with peers and mentors through events and webinars
- ✓ Post-nominals to set you apart from the crowd
- ✓ Training to make you a competitive student graduate
- ✓ Our library of technical journals and resources, to ensure you have the latest information

## Recognise your potential

You've started down the path to a strong career, but you want to make your mark and stand out. Sometimes this means taking the lead and proactively building your career through learning, planning and understanding key industry trends.

EA will help you control the direction of your career, with resources to help you recognise your potential and start making an impact now.

## Leap ahead and start tomorrow's success today.

Membership gives you:

- ✓ Access to training, networking and CPD to expand your knowledge and value
- ✓ Bridge the gap between what you learned at university and what you need now with YEA CPD and Tech Talks Series
- ✓ Publications and thought leadership to keep you on top of industry changes
- ✓ Networking and meaningful connections with peers and mentors, online and in-person
- ✓ Mobile-friendly training that all counts towards your CPD hours with Bite Sized Learning.
- ✓ Discounts on membership as you're just starting out

## Discover the fast-track to success

You've started down the path to creating a better world. You have 'runs on the board' and you want to be recognised appropriately for your success. But what's next?

Whether you want to learn, lead or leverage your skills, membership gives you:

- ✓ Credentials and recognition, from Chartered to the National Engineering Register (NER) and our Awards program
- ✓ Networking, volunteering and events that build your influence
- ✓ Opportunities to shape policy that shapes the world around us
- ✓ Professional development options and resources, from short courses to our create magazine and journals

**Lead the team and together, we'll advance the profession.**

## Make a difference and achieve global influence

You've made it to the top. Now as a valuable member of the profession, you want to give back and make a difference. Your technical skills are without question, and your management responsibilities are advancing as you step into leadership.

EA will help you expand your knowledge in a way that is globally recognised, has a practical impact on the world around us, and is relevant to the day-to-day of your job.

## Drive the team towards excellence as you leave your legacy.

Membership offers:

- ✓ Influence the future of the profession through advocacy and board membership
- ✓ Give back to the next generation by volunteering, mentoring and sharing your expertise
- ✓ Be recognised for your achievements through Chartered, EngExec or our Awards program
- ✓ Contribute to conferences, journals and author opportunities.
